## Awesome Presence, Outstanding Performance

The Plantation is the flagship of the Grand Masters Series. This just may be the perfect manufactured fireplace at 48" wide, 42" tall and a slanted back. Even more impressive is that the hearth floor lies only 1½" above the ground, just like the highest quality traditional masonry hearths. With real firebrick to boost, it's no wonder why this was a Vesta Award winner. Now we've made installing the firebrick even simpler with our new Mosaic Masonry™ technology... authentic masonry homeowners will love!

The Plantation is a dominant feature in any home. It's nearly 12" taller than the nearest contender, with a rich split herringbone brick pattern. The Mosaic Masonry™ firebrick lining system positions FMI's Grand Masters Series as the industry's only real masonry, factory built and UL 127 lab certified fireplaces! The beautiful kiln-fired clay firebrick walls are indistinguishable from site-built masonry. Available in Ivory and traditional Warm Red. The Plantation also features a real masonry style damper door and smoke closet, and vents with 12" double wall chimney. It's among the most reliable, highest performing fireplaces available.

The patented Mosaic Masonry™ firebrick kit is a complete masonry lining system of engineered, steel reinforced, kiln fired clay firebrick walls that install as easily as typical factory-built concrete liners, but finish just like site-built masonry. They're even hand grouted in the factory to minimize site installation time.

Mosaic Masonry™ made simple. All new engineered firebrick walls are hand grouted in the factory. Steel reinforced, factory-built masonry walls easily slip into place and securely fasten to the steel fireplace wall.

Choose Ivory or Warm Red brick in herringbone brick patterns.

The Plantation features a rich "split" herringbone brick pattern. The dramatic 48" x 42" opening is easily the largest in the industry. It's also the only wood burning fireplace featuring a flush hearth floor design.

Plantation Masonry Wood Burning Fireplace Product Offering			
MODEL	DESCRIPTION	BRICK PATTERN	COLOR
