Stunning Looks, Innovative Design

America is moving outdoors. The Portofino outdoor woodburning fireplace is the ultimate compliment to any outdoor room. It's the latest Vesta Award-winner in Fmi's exciting new Mosaic Masonry™. These unique fireplaces feature enormous firebox dimensions with a smooth face design in beautiful brushed stainless steel. The absence of any visible sheet metal compliments true firebrick for an authentic masonry appearance. The Mosaic Masonry™ firebrick lining system positions Fmi's Grand Masters Series as the industry's only real masonry, factory built and UL 127 lab certified fireplaces! The beautiful kiln-fired clay firebrick walls are indistinguishable from site-built masonry, and is available in both traditional Warm Red and Ivory.

Fmi uses only the finest appliance grade stainless steel and kiln-fired clay firebrick. Solid 5/8" stainless bar stock is used our hand crafted and detailed log grates. Checks at each level of production assure a quality product every time. The patented Mosaic Masonry™ firebrick kit is a complete masonry lining system of engineered, steel reinforced, kiln fired clay firebrick walls that install as easily as typical factory-built concrete liners, but finish just like site-built masonry. They're even factory grouted to minimize site installation time.

The Portofino is a true UL 127 approved, "zero clearance" fireplace. This means flexible installation options and guaranteed performance. Best of all, it's approved for indoor as well as outdoor use.

Portofino Masonry are available in 36", 42" and 50" wide openings with Full 30" clear opening height.

Mosaic Masonry™ made simple. All new engineered firebrick walls are hand grouted in the factory for ease of installation.
