## Convenient Features, Unlimited Possibilities

Our Pueblo B-vent gas fireplaces let homeowners have it all: beauty, performance, convenience and economy. Ideal for today's smaller more efficient homes, you can install Pueblo units in a wide variety of locations. They're a key part of our exciting new Renaissance Series, which offers a consistent look, sizing and construction across the entire line...plus beautiful new features homeowners will love!

The Pueblo features attractive, multi-dimensional refractory log arrangements with deep glowing ember beds. With the impressive ambience of the aluminized single and dual yellow flame burners, Pueblo creates the cozy feel of a real fire.

Pueblo come standard with Posi-Lock outside air controls and operates from either wall switch or remote control. Models also come standard with refractory brick floor...and are pre-wired for wall switch or remote control. Gas controls can be accessed through either the lower face panel or inside refractory door so you can install a full-face surround. Converts easily from clean face to circulating in the field. If that isn't enough we've added solid nailing flanges, and drywall stops for ease of installation.

The Pueblo's premium gas logs and glowing ember bed offer the rich ambience of a real wood fire with dancing yellow flames.

With innovations like hidden screen pockets, you see only the beauty of flame, logs and ember bed.

P324 features a clean face design and gas log set; vents with 4" B-Vent pipe.

P325 features premium multi-dimensional gas logs and glowing ember bed; vents with 5" B-Vent pipe.
