Why Napoleon®?

Making your life easier... Napoleon fireplaces are designed to provide you absolute comfort and control at the touch of your fingertips. It's that easy. When you install a Napoleon modern direct vent gas fireplace, you can rest assured that you will enjoy a lifetime of instant ambiance with reliable performance year after year.

An investment you can count on... Your new Napoleon fireplace adds value to your home while at the same time giving you uncompromising comfort and a reliable heating source. Aside from kitchen and bathroom renovations, fireplaces add the highest return on your home investment.

Create your personal design statement... Surround yourself with a home environment that makes you feel good, relaxed and proud to reflect your decorating style. A multitude of designer options are available to create the exact statement you have been looking for.

Highest efficiencies, maximum comfort... Years of research, design and testing have enhanced optimum performance allowing Napoleon products to achieve some of the highest heater rating efficiencies on the market. Napoleon continuously surpasses industry standards not only in appearance but in efficiency and performance.
No power? No problem!... We all feel vulnerable when the power goes out. Now you can weather out the storm in the comfort of your own home! A Napoleon gas fireplace requires no electricity to light or operate, a built-in millivolt system or electronic ignition with battery back-up ensures reliability even during power failures.

Authorized dealer support network... With over 3,000 reputable authorized dealers across North America, Napoleon works hard to provide professional, consistent training and technical education to support our dedicated team of professionals.

Outstanding Reliable Warranty... Each and every Napoleon fireplace is designed and manufactured to strict quality testing standards and backed by the President's Limited Lifetime Warranty, guaranteed to give you the solid performance you deserve. Napoleon is registered under the world recognized ISO 9001-2008 quality systems.

NAPOLEON®
QUALITY FIREPLACES

Outstanding Features
of Napoleon's Advanced Technology

Advanced Burner Technology

Napoleon's sophisticated burner system offers superior flame technology. Strategically placed burner ports create the most natural looking flames in the industry.

Finely Tuned Precision Valves

Surrounded with a protective cast aluminum jacket, the precision valves allow for ultimate reliability and 100% SAFE GUARD™ automatic gas control system.

Exclusive NIGHT LIGHT™

Napoleon's exclusive NIGHT LIGHT™ illuminates the decorative firebox even when the fireplace is turned off.

LED Spectrum Light Kit

Every colour in the rainbow can now be enjoyed by either selecting a preferred colour or setting the lights to scroll through the spectrum of colours illuminating the CRYSTALINE™ glass ember bed (the entire bed will be the same colour as it transitions).

CRYSTALINE™ Ember Bed

Sparkling crystals (topaz standard on most models) add a modern elegance to fireplace designs.

Outstanding Features
of Napoleon's Direct Vent Technology

Direct Vent System

1. Zero clearance to combustible framing
2. Forced convection heated room air
3. Radiant heat
4. High Heat Ceramic or Tempered Glass increases the radiant heat that is dispersed throughout the room. Save up to 30% on energy costs with radiant heat and Zone Heating
5. Cool room air is naturally drawn through the lower opening, circulates around the firebox, and expels into the living space as warm air
6. Optional air circulating variable speed blower with high temperature bearings increases efficient heating
7. Advanced ceramic burner system (select models)
8. MIRRO-FLAME™ Porcelain Reflective Radiant Panels further increase radiant heat (optional on most models)
9. Advanced burner technology produces the most realistic flames in the industry
10. Sealed combustion chamber
11. Optional rear exhaust (select models)
12. Efficient heat exchange system
13. Combustion air inlet
14. Flue gas outlet

With over 35 years of research and development, Napoleon® fireplaces have perfected direct vent technology to offer you a fireplace that easily fits into your lifestyle.

With Napoleon's direct vent technology, you can design and install your fireplace in unique locations where it wasn't possible before with traditional masonry fireplaces. Even your basement can be transformed into a warm, inviting oasis for your family and friends to enjoy.

Whether you are renovating, building or replacing an inefficient fireplace product, Napoleon® helps guide you in the right direction to find the product that's right for you and your home. Napoleon® fireplaces are a smart investment that will bring many years of affordable luxury to you and your family.

Direct Vent Power Venting System
1. Suitable for exhaust products with various vent diameters
2. Installation friendly maintenance free durable construction
3. Blower mounted outside at terminal with WHISPER QUIET™ operation inside
4. Terminates above or below the fireplace to allow more freedom and versatility for direct vent installations
5. No hoses to terminal
6. Ability to "snake" either up, down or around objects (ie; behind stairways)

Napoleon's power venting system allows more freedom and versatility for direct vent installations. The option of having the termination above or below the fireplace, along with the ability to "snake" either up or down, allows installation when the desired fireplace location is a great distance away from an outside wall. The blower that pulls the burned gases from the fireplace is mounted outside at the terminal which provides WHISPER QUIET™ operation inside the home.

Polished Chrome Accent Trim

Designed exclusively for the HD81 Glass Burner or Rock Burner.

Burner Options

Napoleon's HD81 and GD19 offer different burner options to allow you to choose the burner configuration that best suits your home. The HD81 is available with a log set, glass ember bed or a river rock burner and the GD19 is available with a log or river rock burner configuration.

Andirons

Designed to simply stand in front of the logs and give the optimum traditional masonry look and feel.

GEO Shapes

Take your modern fireplace one step further with Napoleon's six piece ceramic GEO shapes media enhancement kit.

Media Enhancement Kits

River Rock Media Kits

Switch out existing logs to a more contemporary setting with the optional river rock media kits. Available in grey or multi-coloured.

Driftwood Media Kits

Designed for both the LHD45 and LHD62 linear gas fireplaces, the driftwood adds a unique look to Napoleon's modern fireplaces, giving you yet another option when choosing a unit to match your décor.

Designer Fire Art - Nickel Stix

The Nickel Stix add a unique look to the LHD45, LHD50 and LHD62 linear fireplaces, reflections from over 100 nickel plated surfaces create a myriad of sparkling (twinkling) flame patterns throughout the firebox.
Designer Fire Art - Metal Coil

The Metal Coil was designed to add an interesting art element to the firebox of the LHD45 linear gas fireplace.

Glass Media Kits

Media kits of coloured glass are designed to enhance or change the look of your firebox by switching out the standard topaz glass.

Amber

Black

Blue

Red

Clear

Topaz (standard)

WHISPER QUIET™
Heat Circulating Blower System
The extreme heat resistant "H" class bearings featured in Napoleon's superior heat circulating blower, create a lasting "whole home" comfort with adjustable high & low speeds.

Thermostat For Hot Air Distribution Kit
Optional thermostatic control maintains adjacent room temperature for even greater convenience.

Hot Air Distribution Kit
With the hot air distribution kit and its independent fan control, you are offered a choice of distributing a portion of the heat generated from your fireplace to other rooms, adding to your overall home comfort... or when fireplace heating efficiency is secondary to the ambiance of a fire, disperse it outdoors... ideal for entertaining.

CRYSTALITES™
Lights that accent the ember bed from below add elegance to the firebox even when the fireplace is turned off. Standard on most Napoleon™ modern fireplaces.

Exclusive NIGHT LIGHT™
The exclusive NIGHT LIGHT™ illuminates the whole decorative firebox, including the logs, even when the fireplace is off.
Convenient Remote Controls
Napoleon's remotes with digital read out and modulating control give you the comfort level you need at the touch of a button.

ZONE Heating!
SAVE MONEY BY HEATING THE ROOM YOU USE MOST!

MINIMUM 30% SAVINGS

Minimum 30% savings on heating costs with Zone Heating
Zone Heating means you are heating the rooms that you use the most with an alternate heat source, like a Napoleon™ heater rated gas fireplace. Zone Heating is the obvious solution for families concerned about rising fuel costs.

Safety Screen
Safety screens are available to protect children, pets and visitors against inadvertent contact with glass. Glass and unit temperature can get very hot.

Superior Heat Resistant Glass
Ceramic and tempered glass are made to withstand high temperatures, allowing maximum radiant heat, performance and safety.
