

Innsbrook Traditional & Loft Contemporary
LUXURY DIRECT-VENT FIREPLACE INSERTS

LUXURY DIRECT-VENT FIREPLACE INSERTS

Innsbrook Traditional & Loft Contemporary

We offer our Luxury Direct-Vent Inserts in two sizes and two styles. Our traditional Innsbrook insert features a seven-piece, hand-painted log set exquisitely detailed with bark, wood, and charring – all set atop a unique burner designed to create a stunningly realistic fire.

The unique diamond-pattern burner in our Loft contemporary insert serves as a blank slate, inviting you to add decorative glass in the colors and styles that best suit your décor. The deep V-shape in the back of the required porcelain liner maximize the flame's flicker, creating captivating views from any angle. The porcelain liners and matching burner tops are available in rich black and ultramodern white.

Both insert styles feature a modern clean-face look – without visible louvers and with the front-mounted valve and control module neatly concealed behind the surround. The large view window (400 sq. in. on the DXL/DXT30 and 584 sq. in. on DXL/DXT35) allows an unobstructed view of the fire.

An intuitive battery-operated thermostat remote comes standard and lets you light the fire, control the flame height, and vary the speed of the built-in blower. In Smart mode, the thermostat automatically reduces flame height and blower speed as your room reaches the desired setting – eliminating temperature fluctuations.

Liners

For Innsbrook traditional insert models, choose a ceramic fiber liner in rugged Mountain Stack, Natural Banded Brick, or Aged Banded Brick. Or select a Black Porcelain liner to enhance the illusion of flame and depth.

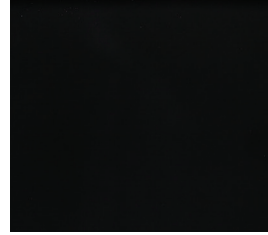

Mountain Stack

Natural Banded Brick

Aged Banded Brick

Black Porcelain

For Loft contemporary inserts choose a porcelain liner in black or white – with a ridge in the back panel to add depth and increase the reflective surface. Add a matching burner top for that special finishing touch.

White Porcelain

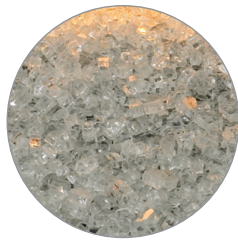

Black Porcelain

Decorative Glass

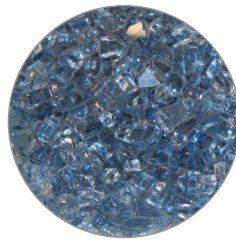

Complete your contemporary Loft insert with decorative glass – available in a variety of sizes and colors to let you mix and match to create a look that's just right. Additional colors are available through your local hearth dealer.

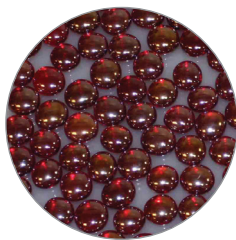

Black Crushed

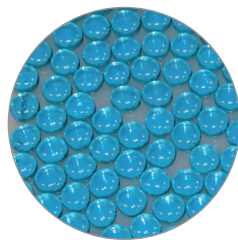

White Crushed

Blue Crushed

Red 1/2-in Droplets

Blue 1/2-in Droplets

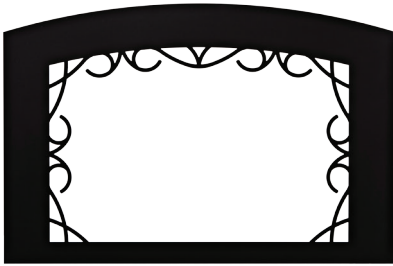

Clear 1/2-in Droplets

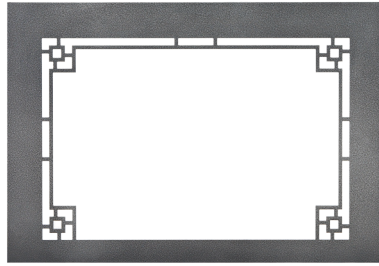

Surrounds & Fronts

Your new direct-vent insert will require a surround and decorative front. Choose from four styles of fronts in a variety of finishes including matte black, hammered pewter, and brushed stainless steel. The front attaches in seconds to the matte black metal surround. Factory custom three-sided and four-sided surrounds are available to help create the perfect transition for the insert to the existing fireplace.

We recommend a fireplace screen to prevent contact with the hot glass. Available in matte black.

Lafayette - Matte Black
(Also Hammered Pewter, Stainless Steel)
