

Cast Iron Gas Stoves

BEAUTY AND BRAINS

NOTHING BEATS A CAST IRON STOVE TO ADD BEAUTY AND WARMTH TO YOUR HOME

Available in direct vent or vent free styles, the Concorde cast iron gas stove from Monessen is the best choice for comfort, convenience and style.

DIRECT VENT STOVES

DIRECT VENT STOVES

Small but mighty, the Concorde direct vent stove from Monessen provides up to 28,000 BTUs of heat. Clean-burning and efficient, the classic styling complements to any décor. Universal appeal with the warmth and ambiance of a glowing fire make these direct vent gas stoves the perfect addition to your space. With the benefit of remote operation and battery operated pilot ignition, the Concorde direct vent stove combines beauty and brains to provide you one fabulous heating appliance.

ALL OF OUR MONESSEN GAS STOVES OFFER THESE GREAT FEATURES.

CAST IRON CONSTRUCTION

Nothing endures like cast iron. Used for years, cast iron ensures the most durable, beautiful stove available today.

OPTIONS TO SUIT YOUR STYLE

Available in two classic colors and two venting options, you can add the warmth of fire to your home in just a few hours. Whether you use natural or propane gas, the quality and efficiency of the Concorde stove is yours to enjoy.

CONVENIENCE

Available in millivolt control with remote operation, you can operate the unit from the comfort of your couch. Winter power outages are no longer a concern—Concorde gas stoves will heat your home, even when the electricity goes out.

SAFETY FIRST

The direct vent model has a certified safety barrier available to cover the hot glass surface. The vent free model comes standard with a fixed safety screen installed.

VENT FREE STOVES

The Concorde vent free stove combines all the features and style of the direct vent version, but with the ease of installation only available in a vent free design. Suitable for nearly any space in the home, the Concorde vent free stove requires only a gas line hook up to operate. Crafted in traditional cast iron, these models offer up to 32,000 BTUs of space warming heat.

CSVF30 STANDARD FEATURES

- Millivolt with on/off switch and variable flame height control
- Flexible connector with On/Off valve included
- No venting required for ease of installation
- Consumer friendly deluxe control panel
- Available in Graphite or Enamel Brown
- Fixed safety screen
- Single door design for full view of the fire
- Triple Play Burner System® produces a full random yellow flame, full depth ember bed and glowing logs
