CONVENIENT OPTIONS TO FIT YOUR STYLE

VFC Symphony with transitional face and exclusive five piece log set

AVFL Artisan with Driftwood Logs and Black Texture Face

CHOOSE THE FIREPLACE THAT'S RIGHT FOR YOU

Our Monessen vent free fireplaces offer flexible installation and a lineup so versatile, you're sure to find the model that's right for you. We've got everything from compact models, perfect for smaller rooms, to larger models with more heating power, from styles to suit the traditionalist in you, to linear units for that modern look you've been craving. Check out the advantages of a vent free fireplace from Monessen below:

MAXIMIZE SAVINGS WITH UNBEATABLE EFFICIENCY

Vent free gas fireplaces, available in natural gas and propane designs, are a safe, green and energy efficient way to add heat to your home — in fact, they're 99.9% energy efficient. Because they are vent free, none of the heat gets lost up a vent, flue or chimney. Instead, fuel dollars get transformed into heat-warming energy. Plus, you'll always have the assurance of a heat source in the event of a power outage.

FREEDOM TO INSTALL ALMOST ANYWHERE

Because vent free fireplaces are designed to be installed and operated without a chimney, flue or vent, they can be located in areas where it would be impossible to install a vented fireplace. They provide the most economical of any heating option, because they only require a connection to a gas line.

ZERO CLEARANCE FOR ULTIMATE FLEXIBILITY

Monessen vent free fireplaces allow for zero clearance installation, which means they may be installed flush against any combustible surface such as drywall or wood. This gives you added flexibility and helps save installation dollars when deciding where to install your fireplace, whether on an interior or exterior wall, or even in a corner.

(It is important to remember that the appliance should be sized to fit the area in which it is to be installed and must meet any additional regional or local requirements.)

AVFL Artisan with Stainless Steel Face and Diamond Iceberg Glass on cover

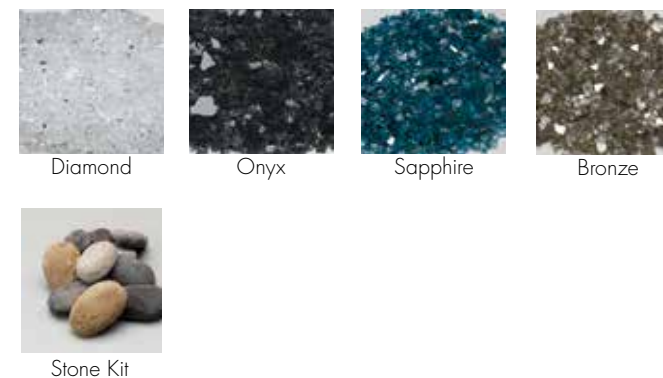

ARTISAN AVFL VENT FREE FIREPLACE

The Monessen Artisan vent free fireplace is the perfect solution when you want to add a modern fireplace to your home, without the nuisance of venting and renovation. Boasting 99.9% efficiency and an abundance of optional accessories to customize your style, the Artisan heats up to 1400 square feet beautifully. Choose the stylish driftwood log set, rustic stone kit, shimmering iceberg glass, or go minimalist with just a coating of crushed fireglass, and transform the unit to suit your space.

Quick Look:

- Comes standard with beautiful black porcelain liner
- Fireglass kit included (Diamond)
- Total Signature Command® system
- Front access controls make adjusting the fireplace easy
- Mesh screen included
