

## SVC1080-LCA / SVC1080-LCS FIRMWARE UPDATE INSTRUCTIONS

**NOTE:** To get the most updated firmware, please contact your local distributor, you can also visit <http://support.smartwitness.com> to download.

### 1. Prepare Firmware

Create a folder “program” on the SD root folder as shown below,

Copy “xxxxxxx\_x.x.x.bin” file to the SD card in the “program” folder.

### 2. Upgrade the SVC1080-LC

Insert the prepared SD card to SVC1080-LC unit and turn on the power.

The Blue & Red LED will quickly blink while the unit is upgrading. It will also ‘beep’ continuously. Upgrading the unit usually takes about 30 seconds.

**Warning: Do not turn off the power during upgrading.  
If the upgrade fails, the SVC1080-LCA unit should be returned  
to your local distributor.**

Once the upgrading is finished, the unit will automatically turn off and on the power.

If SVC1080-LC records as normal, turn off the power.

Insert the SD card into your PC and initialize it using the SVC1080-LC Analysis software once you have verified proper operation.
