## STUNNING LOOKS, OUTSTANDING PERFORMANCE

America is moving outdoors and FMI's Tuscan Outdoor Wood Burning fireplaces are the perfect complement to any modern outdoor room. The stainless steel construction offers weather resistance for outdoor applications. Available in both 36" and 42" models, and your choice of brick liner styles.

### Tuscan Outdoor Wood Burning Fireplaces

- **Eye-dazzling beauty and durability** - FMI's Tuscan Outdoor Wood Burning Fireplace features clean, single piece brushed stainless steel faces, stainless mesh spark screens and even a solid stainless steel log grate. The screens tuck out of sight behind hidden side pockets to maximize the beauty of the fireplace.
- **Efficient and versatility** - The Tuscan Outdoor Wood Burning Fireplace vents using our 8" double wall snap lock chimney pipe for a space saving installation.
- **"Gas log ready" feature** - Allows homeowners to add gas log sets with all gas connections and controls, protected and hidden out of sight. You see only the beautiful flame, premium gas logs and ember bed.

Tuscan Outdoor Wood Burning Fireplaces (S36 and S42) include natural white or warm red brick panels in traditional "stacked" or herringbone style.

## CLASSIC BEAUTY, ULTIMATE FLEXIBILITY

FMI's Alpine outdoor vent-free gas fireplace systems transform just about any backyard into a private year 'round oasis. The Alpine offers the beauty and ambiance of a real wood outdoor fire but without the smoke, hassle and mess. The log set, burner system, and brick liners come installed in the fireplace to combine one beautiful and complete package!

### Alpine Vent-Free Gas Fireplaces

The Alpine from Fmi features clean, brushed stainless steel faces and stainless mesh spark screens. Integrated gas log sets feature intricately detailed bark, split wood and charred textures. Available in 36" and 42" sizes in natural white or warm red brick, Alpine is perfect for any outdoor room.

### Valiant Vent-Free Gas Fireboxes

The Valiant from Fmi features clean, brushed stainless steel faces and stainless mesh spark screens. Valiant fireboxes are designed to be used with separate outdoor log sets. (See Page 9) Valiant Fireboxes are available in 32", 36" and 42" sizes.

Alpine Vent-Free Gas Fireplaces (O36 and O42) include natural white or warm red brick panels in traditional "stacked" or herringbone style.

# OUTDOOR PRODUCTS

## THE ULTIMATE COMPLIMENT TO ANY OUTDOOR ROOM

For Centuries, a traditional masonry fireplace has been the focal point of the home. And over the years, creative new designs and features have enhanced both form and function of the hearth. Fireplace manufacturers instinctively compare their fireplaces to traditional, masonry wood burners. But only one manufactured fireplace line can really call itself "Masonry". FMI's patented Mosaic Masonry™ features real firebrick finished interiors, with no visible sheet metal for the authentic richness and beauty of a custom, site-built masonry fireplace.

FMI's Venetian Mosaic Masonry™ Outdoor Vent-Free Fireplace, with warm red herringbone brick, constructed and equipped with stainless steel components for outdoor applications.

# Modular Masonry Fireplace Systems

## Grand Meridian Wood Burning Fireboxes

Today's most discriminating homeowners will settle for nothing less than a real masonry fireplace. But they soon find that the level of craftsmanship to properly build a site-built fireplace is extremely expensive, and has all but disappeared. Due to their weight and method of construction, masonry fireplaces are also very limited in where they can actually be built.

The solution to this dilemma is the new Grand Meridian from Fmi Products. The Grand Meridian is a true, 100% masonry fireplace, but with only half the weight and half the cost of traditional masonry fireplaces. This modular masonry system can easily be added to your master bedroom, upstairs retreat or even your outdoor patio, without any special engineering or major building reinforcement. The Grand Meridian allows you to realize your dream of a fireplace in your favorite spot and provide you with years of treasured memories.

### Homeowner Highlights

- Lightweight construction with multiple firebox sizes available
- Indoor/outdoor, wood burning, natural and propane gas systems
- Approved for multi-story combustible wood floor installations
- Superior thermal efficiencies, with the highest resistance strength at 28 days
- Complies with UL 127 & UL 103 chimney component standards
- 10-year limited warranty

### Product Offering

Our Grand Meridian is offered as a traditional wood burning fireplace that can also accept an ANSI Z21.60 approved gas log set. We also offer this exceptional fireplace in a vent-free gas version designed for approved, indoor applications—where allowed—or for outdoor applications using a clean burning gas log set. For those looking for more design creativity, both the wood burning and gas versions are available as a 2-sided, see-thru fireplace.

**Easy, no mess installation means lower costs and faster completion time!**

1. Installing base and first course

2. Starting the smoke chamber

3. Easy to build smoke dome

4. Finishing with the dome top

5. Finished Meridian in under 2 hours

Large 49" Grand Meridian Masonry Fireplace shown with 36" Giant Timbers Log Set & MFEB Ember Bed

### Optional Accessories

- Optional brick panels are available in all standard sizes in Stacked & Split Herringbone patterns.
- The Masonry Chimney is available for indoor and outdoor installations in 14".
- The optional arch is available in our 49" size and can be adjusted down to 44" and 39" sizes.
- The optional Fire Ring adds beauty to the Grand Meridian Fireplace.

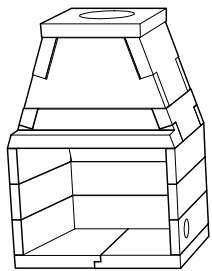

# OUTDOOR PRODUCTS

## DESIGNED TO TOTALLY FIT THE LARGER FIREBOXES OF TODAY!

The uniqueness of this design is that the unit stands 19" tall and over 15" deep. 24" models are designed for FMI 36" fireboxes, 30" models for 42" fireboxes & 36" models for fireboxes 48" and larger. Magniflame models boast a triple burner for greater fire and light: two burners of bright yellow flame, plus the front burner for the glowing ember bed.

36" Giant Timbers Log Set with MFEB Ember Bed

## Giant Timbers Gas Logs

- **The beauty of a wood fire, with none of the work -**

Nothing compares to the warmth and the charm of an open fire in the fireplace. Through its engineering, FMI Products has created logs that beautifully duplicate real wood, a coal bed with a deep comforting glow, and a flame that dances and flickers like a wood fire.

- **The convenience of gas, flames with a flip of the switch -**

While nothing compares to the charm of having a fire in the fireplace, there is little joy in the time and mess of making a regular wood fire and cleaning up the ashes afterwards. FMI Products "Remote Ready" burner systems can also be controlled by the optional on/off remote control for added convenience.

- **The efficiency of Vent-Free -**

FMI's unique, clean burning design provide 99% heating efficiency, allowing you to operate the logs vent-free with the fireplace damper closed. With no venting required, there is no heat loss up the chimney. Ordinary vented gas logs operate at approximately one third the efficiency and twice the cost, requiring the damper to be open, allowing beneficial heat to escape. When it comes to real comfort, efficiency and savings, FMI's Vent-Free Gas Log Heaters leave ordinary gas logs in the cold.
