Welcome to our newest edition of the HPC Outdoor Products Dealer Catalog. We at HPC Fire Inspired™ truly appreciate your business, and we're so grateful for the trust you've placed in us. We believe that customer service is not just a department, rather it's the entire company. Our goal is to make your experience as easy and seamless as possible. We will do this through all facets of our business. You may have notice our new messaging, "Inspired by Safety. Innovated for your lifestyle"   Only HPC creates safety and confidence with fire-inspired products that outlast and outperform the competition.

I would like to highlight the following new programs to support our mutually beneficial growth aspirations:

1. CSA certified 400+ appliances certified for top performance
2. Lifetime Warranty on burners
3. CADdetails – 3d models
4. New Products Page XXX
5. New Dealer Portal - Ease and accuracy of ordering
6. Quick Ship program -1 day shipment
7. BILT -3D interactive instructions
8. Live Customer and Technical Support - Open 7am-7pm ET Mon thru Thurs. 8am-5pm Fri
9. SMART App Technology to support the operations of the fire feature
10. Fun with Fire Series – A new series of education and training

On behalf of all the team at HPC, I would like to thank you all for your continued support. Cheers to a successful and prosperous year!

All the Best!

Sean Steimle, Chief Executive Officer

WHAT DOES MAP MEAN?

Throughout this Dealer Catalog, you will see the acronym MAP. This stands for Minimum Advertised Price, and it's a policy that HPC Fire Inspired™ applies to nearly all our products. Quite simply, this MAP Policy prevents any trade partner from advertising our products at prices below those specified by HPC Fire Inspired™.

For a full explanation on this, and other HPC Fire Inspired™ policies, follow this link to the Policies & Procedures portion of our website. *(hpcfire.com/support)*

MAP
APPLIES

QUALITY QUALITY QUALITY

At HPC Fire Inspired™, we build our products with great care, and we back it up with the strongest warranty in the industry. However, should the rare occurrence require repair or return of an HPC Fire Inspired™ product, we have programs that make this rare but unfortunate occurrence easy and painless for dealers.

Product Returns: The first step to solving a problem is a call to our Technical Services Department. That will usually take care of the majority of issues. However, if it doesn't, then a RMA (Return Merchandise Authorization) is issued, allowing the customer to send the product back to HPC Fire Inspired™.

Product Testing: Every product that is returned to HPC Fire Inspired™ is tested to see what is wrong with it. This testing determines whether the product can be repaired and sent back to the customer, or replaced.

Warranty: HPC Fire Inspired™ backs up its products with a strong warranty policy, covering many of our products for up to five years. See chart below.

WARRANTY POLICY

Components	Application	
Outdoor Fire Components	**Residential**	**Commercial**
Fire Pit Stainless Steel Burners	*Lifetime*	*Lifetime*
Outdoor Fireplace Burner & Pan	*Lifetime*	*Lifetime*

DEALER INCENTIVE PROGRAM

LOCKED-IN INCENTIVE PRICING STRUCTURE FOR AN ENTIRE YEAR:
When your yearly sales orders meet one of our incentive levels your price structure is locked in for a full calander year. See dealers incentive schedule in this program.

PRODUCT DEMOS:
As a dealer you may request any available product demo for your sales needs.

PRODUCT PRESENTATIONS (POWER POINT BASED) — CUSTOMIZED TO YOUR NEEDS:
As a dealer you may request a customized powerpoint presentation prepared by HPC sales staff for your sales meetings.

COMPANY CONTACT INFORMATION LISTED IN OUR DEALER LOCATOR ON OUR WEBSITE:
As a dealer you will automatically be included in our searchable online referral database at hpcfire.com/buy-local.html

PREFERRED CUSTOMER ADVISORY COUNSEL DISCUSSIONS:
Each year HPC will put together and request certain dealers participate in an advisory council to voice product needs, value added ideas for the program going forward, and industry news and events.

ONLINE ORDER FULFILLMENT:
HPC offers a searchable online ordering site through the HPC Dealer Portal Store.hpcf ire.com.

NEW PRODUCT DEVELOPMENT INPUT:
All dealers are encouraged to provide input on new product development.

HOW WE BEAT MOTHER NATURE
There's no two ways about it. Outdoor gas fire pits face a double-barrel assault from Nature, namely from wind and rain. But HPC designs its products with Nature in mind, to make sure our fire pits function effectively and safely in the field. For example:

- The Penta Burner sheds rain water in several ways. Each of the five lobes have "weep holes" that drain water. Also, the hub in the center of the burner is sealed to prevent water leaking into the burner.

- HPC's Electronic Ignition models all include a "drip leg" that diverts any water away from the electronics.

- In case of a very strong wind blowing out the fire pit flame, HPC's Electronic Ignition and Push Button/Flame Sense models all are equipped with a thermocouple sensor that will shut off the gas supply if the flame is extinguished. Even without this protection, wind blowing out the flame would be a very rare occurrence, since the pilot flame area is surrounded and protected by a metal "blow-out box."

- Spiders Not Welcome. Strangely, spiders are attracted to the odorant that is added to propane to give it its distinctive smell (alerting people if there is a leak).There spider nests have the potential of interfering with the flow of gas. However, HPC designs around that by including a mesh "spider guard" on all its CSA-Certified fire pit inserts.

Lastly, we also offer a technologically simple method for protecting against the elements. It's called a cover. All fire pits should be covered when not in use, especially in the off-season.

HPC'S MISSION STATEMENT
To produce beautiful, safe and high quality fire features that enhance the atmosphere of spaces to create memorable moments and real conversations.

Inspired by safety. Innovated for your lifestyle.

CUSTOM FIRE PITS

One would think that with over 300 standard off-the-shelf fire pit inserts there would be no need for custom designs...think again! Our creative and always "thinking out of the box" network of Dealers never stop- often thanks to you the End User!

Our team of designers is certified by the National Fireplace Institute (NFI) to ensure product safety and proper operation. HPC designs and manufactures commercial or residential fire features including custom enclosures and fire pit inserts of any shape or size− from 2 feet to 30 feet wide, from 25 thousand to 600 thousand Btu output. These fire products can be found at large venues throughout the world including casinos, resorts, ball parks, airports, malls, restaurants....and your backyard!

The custom flame control technology HPC offers ranges from the small match lit to the simple flame sensing controls to the very popular Electronic Ignition controls allowing for remote start and automatic relight. Our custom manufactured burner / pan assemblies are made of high-grade stainless steel material specifically designed to meet your need- these commonly consist of large manifolds or fire rings in any shape or size.

Please allow us to assist you in the design of your custom project. We will be happy to provide input- our years of experience and knowledge of outdoor and indoor systems will make it easy and more importantly keep it safe.

CUSTOM FIRE PITS HIGHLIGHTS

- **Design & layout assistiance from NFI Certified Technicians**

- **Custom drawings & models**

- **Design burner, pan, and/or control systems to fit your needs**

- **Vast catalog offering of CSA Certified Producrts may fit your custom needs with small or no modification to the product**

Go to **hpcfire.com/custom** to complete the custom fire pit form

NEW PRODUCTS

WITH CONTINUED INNOVATION COMES REGULAR CHANGE!

At HPC Fire Inspired™ we are working on new products daily! We will keep you updated via e-mail blasts, social media and a web page that will have all new products as they are released.

Visit HPCfire.com/hpc-new-products for all new products

Inspired by safety. Innovated for your lifestyle.

AT HPC FIRE INSPIRED™ CUSTOMER SERVICE MEANS EVERYTHING TO US!

We strive every single day, every waking hour to fulfill our customers needs and expectations. Some companies just say they believe in customer service, or it is in the DNA of the company but have you ever tried to call them? Do you get an actual real person on the phone when you do or an automated recording?

At HPC Fire Inspired™ we listen to our customers and also anticipate what they will need. We have launched 5 new customer service products this year alone. Below you will find the products, information and resources on this years launches!

HPC partnered with a 3rd party platform called BILT to bring you 3-D Interactive instructions, troubleshooting and training on our products to better serve you.

HPC launched the new dealer portal for ease of use, convenience and for you to never forget that product that you always need. Manage invoices, see past purchases and most purchased products.

HPC "1 DAY" QUICKSHIP PROGRAM

We know that business can move fast and things can happen last minute. With this in mind we launched our "Quick Ship Program", if you need it next day you can get it if you have the order in by 2 p.m. Eastern to us.

An easier to use and navigate website so you can take your customers to the product they need quickly and easily to make that sale.

Engineering has committed to having all employees NFI Certified this year. This means that along with our NFI Certified Techs, the engineers will be!

EVOLUTION 360

These inserts have many unique and user friendly features that make them a year round water and fire pits. We have made these inserts so the fire, water and lighting features will work independently of each other making them ideal in areas that require the water feature to be winterize. Ships in crate on pallet.

HAMMERED COPPER FIRE BOWL

Hammered Copper - 4 Scupper

360 Feature being finished with paver stone

Includes Basin, 26" Copper Water Bowl, and Electronic Ignition Fire Pit (13SSEI).

H2Onfire

HPC is proud to announce another first in the industry, the H2Onfire fire on water feature. This insert has been a longtime request of our dealers (and the consumer). A true electronic fire on water, turn-key appliance operating at a gas pressure less than 1/4 psi, allowing for residential installations. It is also the first "fire on water" system to be certified in North America to the Z21.97 standard by the CSA Group - passing the stringent wind, rain, and combustion test.

The fire ring is totally submerged underwater using our patent pending burner design and back flow prevention to protect the controls - giving an even and very appealing flame at only 65,000 Btu. This is NOT a match lit system- it is remote control with auto relight. Our ignition and flame sensing network is located in the center tower monitoring flame conditions at all times. **Ships in crate on pallet.**

CONCRETE FIRE ON WATER AND HAMMERED COPPER 360

Black Concrete Bowl - 4 Scupper

HPC ® **FIRE** INSPIRED™
① MATCH LIT (MLFPK SERIES)

This is our simplest certified fire pit insert- easy to operate and requires the least amount of maintenance.

How It Works

Start Up: This is done by lighting long-stem lighter next to perimeter of burner then slowly open key to valve. Leave key in valve during use.

Operation: Flame height may be adjusted by turning key to valve- counterclockwise provides more flame, clockwise lowers flame.

Shut Down: To turn OFF the fire pit simply turn key to valve clockwise to OFF position. Remove key.

Features

- Fully Assembled and ready to install.
- Flex Line configuration provides versatile and simple installation.
- Valve mounting bracket included- for safe mounting of control have.

Flex Line - Whistle Free

Mounting Bracket

- Flame height is adjustable using key valve.
- Natural Gas or Liquid Propane: Factory built & tested for either fuel.
- CSA Certified in US & Canada to ANSI Z21.97-2014 / CSA 2.41-2014 requirements.
- Optional Install & Controls: Paver Block Bracket, Key Extension Kit, Long Keys and Spark Ignition Kit.

② PUSH BUTTON / FLAME SENSE CONTROL (FPPK SERIES)

This is our mid-range fire pit insert utilizing safety pilot flame control- simply push ignition button and valve control knob to start... flame adjustment is done with knob. This battery operated system is a good solution for flame sensing necessity without AC power requirements.

How It Works

Start Up: This is done by simultaneously pressing valve control knob to start flow of pilot gas and pressing ignition button for spark. Release spark after pilot ignition, release valve control knob after ~20 seconds. Then turn valve control knob counterclockwise to light main burner.

Operation: Flame height may be adjusted by turning valve control knob- counterclockwise provides more flame, clockwise lowers flame. If flame loss does occur, the system will automatically turn off all gas flow.

Shut Down: To turn OFF the fire pit simply turn valve control knob clockwise- slightly depress knob to reach OFF position.

Features

- Fully Assembled and ready to install. Control components are protected within valve box.
- Flex Line configuration provides versatile and simple installation.
- Start ignition with push button and valve control knob.
- Flame sensing- system will turn off gas if flame is lost.
- Flame height is adjustable using valve control knob.
- Battery Operated System- is perfect solution for installs with no power.
- Natural Gas or Liquid Propane: Factory built & tested for either fuel.
- CSA Certified in US & Canada to ANSI Z21.97-2014 / CSA 2.41-2014 requirements.
- Optional Install: Control Box Sleeve for mounting in pavers, metal and more. (Pg. 47)

③ REMOTE ELECTRONIC IGNITION CONTROL (EI SERIES)

This is our top-of-the-line system featuring the ignition ease with use of a wall switch or handheld remote to control flame as well as auto-relight if flame loss. This year we are launching a new control system with numerous convenience and performance improvements for both On/Off Models and our newly introduced High/Low Models- such as High/Low flame control via our new remote, a redesigned hot surface ignitor and many other improvements.

Hot Surface Igniter

Pilot Flame

Thermocouple Sensor
Smart device App available on Hi/Lo Models only

How It Works

Start Up: This is done by use of a wall switch or remote control. When the ON command is received, the system completes initial safety checks then starts flow of pilot gas. After 5 seconds the hot surface igniter glows igniting pilot flame. When the system confirms pilot flame present, the main burner gas will flow ignited by the pilot flame.

Operation: While enjoying the ambiance of your fire pit, the system is at work monitoring flame status, internal temperatures / voltages and other safety parameters. If flame loss does occur, the system will turn off all gas flow, and then restart by automatically commencing Start sequence.

> **On/Off Models:** Includes the convenience and safety features- optional remote control available.

> **Bluetooth High / Low Flame Control Models:** This option includes a smart remote and App via smart device control with 2-way communication with the fire pit. Remote allows flame height control while receiving information from fire pit to advise user of fire pit status (flashing LED).

Shut Down: To turn OFF the fire pit simply use wall switch, remote control or whole house system.

Features

- Fully Assembled- ready to install. Control components are protected within valve box.
- Start via wall switch or remote control; Auto re-light if flame is lost.
- Ignition is complete using a robust and reliable Hot Surface igniter.
- On/Off models: Use with optional wall switch, Remote Control or your whole house system
- High/Low Flame Control Models: Adjust high setting to low setting- ~45% turndown (Remote Control included). Not for use with your whole house system.
- 120vac: Standard outdoor grounded power cord- simply plug into GFCI outlet.
- 24vac Option: Typically used with lower voltage requirements.
- Natural Gas or Liquid Propane: Factory built & tested for either fuel.
- Internal temperature monitoring with overheat auto shutoff.
- CSA Certified in US & Canada to ANSI Z21.97-2014 / CSA 2.41-2014 requirements. (This new EI system already meets upcoming 2020 ANSI requirements).
- Optional Controls: On/Off Remote, Timers, Power Supplies and an Emergency Shutoff. (Pg. 56)

Igniter / Sensor are protected from outdoor elements in the blowout box

On/Off Model- Remote (Optional)

High / Low Model- Remote (Standard)

Thermocouple Lead crimped by design for ease of install.

⚠ **WARNING: California PROP 65:** This product can expose you to Lead & Chromium, which is known to the State of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.

OUTDOOR FIREPLACE BURNERS

FIREPLACE SERIES ALL-IN-ONE BURNERS

HPC is broadening the field of outdoor gas fires by introducing a new line of Outdoor Gas Fireplace Burners. Ideally suited for retrofit or new construction applications, these Outdoor Fireplace Burners come in two distinctive styles: A Dual Step Burner in two sizes; and a Linear Burner than comes in six sizes (up to 87" long)!

SELLING POINTS

Adjustable Feet

The HPC Copper Bowl Series is available in the Fire Bowl or the Pool Side Fire & Water Bowl models. Both versions are fitted with a CSA Certified match lit (MLFPK) or remote electronic ignition (EI) fire pit insert and are available with both Liquid Propane or Natural Gas. These come in an oil rubbed look with either a hammered finish or a smooth finish, based on model. The

Pool Side Fire & Water Bowls utilize 1" FIP fitting for pool pump connection.
SHIPPING: Both bowl and fire pit insert ship from Ohio warehouse - crate on pallet.
Fire-and-water models now available in 12V for poolside applications.

COMPLETE FIRE PIT PACKAGES

These units are unfinished to allow the customer to finish with stone, veneer, or stucco to match their surrounding. Units are available in round, octagon, square, and linear shapes. Housings take the guess work out of enclosure construction - especially with the difficult round and octagon shapes. These are 18" tall and are constructed of sturdy 22 gauge galvanized steel material, welded frame, and a 1/2" hardie board shell, and weigh 150 lbs.
Enclosure ships from North Carolina warehouse on pallet; Fire Pit ships from Ohio warehouse.

HPC offers complete fire pit packages that include unfinished enclosures fitted with a certified remote electronic ignition (EI), push button/flame sense (FPPK) or match lit (MLFPK) fire pit insert.

Now, certain models are available sized to fit a small LP tank inside. Door included. See page 40.

ROUND ENCLOSURE - PENTA BURNER - SPECIFICATIONS

EI Models Include: *Enclosure, Fully Assembled Insert, Input Flex Line and Instructions*

FPPK Models Include: *Enclosure, Fully Assembled Insert, Mounting Sleeve and Instructions*

MLFPK Models Include: *Enclosure, Fully Assembled Insert and Instructions*

Frame is pre-cut for FPPK or MLFPK.

FIRE LOGS

CONCRETE OUTDOOR LOGS

Second only to the flame itself, nothing says outdoor fire pit like a beautiful set of fire logs. HPC is introducing a new line of fire logs this year. This new line-up features logs that are intricately detailed and extremely durable. To give our logs a true realistic appearance, they are actually cast from real pieces of wood. Nearly impossible to tell from the real thing! Three distinctive styles, in 9-piece or 16-piece sets.

ARIZONA WEATHERED OAK

A classic look. The Arizona Weathered Oak fire log set features deeply contoured bark, all intricately hand-painted. Beautiful from every angle.

SPECIFICATIONS

Style	Model	Piece	Size
Arizona	FPL18/24AWO9	9	12"-18"
Weathered Oak	FPL30/36AWO16	16	14"-18"

ASPEN BIRCH

Logs with a contemporary flair, these Aspen Birch fire logs fit very well with rectangular and linear fire pits.

SPECIFICATIONS

Style	Model	Piece	Size
Aspen	FPL18/24AB9	9	11"-18"
Birch	FPL30/36AB16	16	13-18"

WESTERN DRIFTWOOD

A new design, the Western Driftwood fire log set really looks like its pieces were picked up off the beach. Beautiful whether the fire is burning or not.

SPECIFICATIONS

Style	Model	Piece	Size
Western	FPL18/24WD9	9	10"-18"
Driftwood	FPL30/36WD16	16	10"-21"

LAVA & CERAMIC ROCK

LAVA ROCK

Time tested, Lava Rock is proven to increase combustion efficiency while maintaining a classy look for any fire pit. The size of each piece of rock varies from 1" to 2". Lava rock is sold in 1/2 cubic foot increments. Serves as an excellent base for our specially designed outdoor logs.

Model	Size
657	1"-2" Size

ROLLED LAVA STONE

Red

Black

Unique finish lava stone rolled smooth. Available in 1/2 cubic foot bags.

Color	Model	Size
Black	857S	1"-2" Size
	857M	2.5"-4.5" Size
Red	858S	1"-2" Size

CERAMIC RIVER ROCK SERIES
Looking for something other than lava rock or glass? HPC has a third option for media over your outdoor (or indoor) burner, our River Rock Series. These imitation stones are lightweight ceramic fiber, gel cast and designed to take on the outdoor elements. Each set comes with an 84 piece assortment of large and small stones (large pieces are 4 1/2", small pieces are 2 1/2"). One set is 1/2 cubic foot (15 lbs). Available in two styles — black or multi color (light and dark brown, gray, and black)

Black

Multicolor

Model	Color	Size
FPR84MC	Multicolor	2.5" - 4.5" Size
FPR84BL	Black	2.5" - 4.5" Size

Inspired by safety. Innovated for your lifestyle.
FIRE GLASS

HPC has 10 colors to choose from - The glass shown- is 1/4"

Sold in 10 lb increments (Priced per pound)

GLASS WIND GUARDS

HPC provides a high quality glass wind guard specially designed to complement as well as provide additional safety for HPC fire pit inserts of all shapes- round, square, rectangle and linear. These feature a durable tempered glass construction to ensure a long lasting, heat resistant product. Wind guards reduce flame disturbance of your fire pit and prevent loose items from getting too close to the flames.

Features:
Tempered Glass - Heavy duty 3/16" clear glass is tempered to improve durability and allow it to withstand high temperatures. Depending on wind guard size- 4 or 6 sections complete the desired shape.
Brackets - Polished aluminum brackets and plastic support feet provided.

STAINLESS STEEL COVERS

These stainless steel covers are constructed of #304, 20 gauge material with handle. Great for covering fire pits without outdoor logs. Linear trough covers are designed specifically for our trough series, be it match lit, manual ignition, or remote electronic ignition models. These are lightweight and have handles for ease of use.

LINEAR

Stainless	Size	Model	Height	Handle	Weight
Brushed	28" x 9.5"	TPHC-24SS	1"	1	11 lbs

DECK INSULATION KIT (EI, FPPK & MLFPK)

This kit is for use when installing a gas fire pit on a wood or composite deck- provides flame and excess heat protection around input flex line connection(s). This basalt insulation is for inside the fire pit enclosure or bowl, is meant to place over a layer of paver blocks (1" min. thickness) commonly found at your local builder's store. Incoming gas stub must protrude through the deck, paver blocks and insulation for fire pit flex line connection. Kit includes basalt insulation and instructions- basalt insulation measures 39.3" x 39.3" (1 sq. meter)- larger fire pits will require more pieces, insulation is easily cut with utility knife. Smaller bowl kit available.

FPI-DECK20SQ - For fire bowls- includes basalt insulation- 19.6" x 19.6"

FPI-DECK39SQ - For fire pits- includes basalt insulation- 39.3" x 39.3" (1 sq. meter).
HARDSCAPE BLOCK KIT

This kit is for use when installing a fire pit in ready-made hardscape blocks. The kit includes all the things you'll need to complete the installation (besides the fire pit itself and the block):

- A Flex Form Collar, an adjustable sheet of steel that fits between two horizontal runs of block and holds up the fire pit insert
- Accommodation for the Controls: either a Mounting Bracket for match-lit fire pits; or a Mounting Sleeve for Push-Bottom/Flame Sense models
- Vents. Two of them, measuring 9"x4"

Ignition	Collars	Model
Push Button -	1 Box	HSBK-FPPK-1
Flame Sense (FPPK)	2 Boxes	HSBK-FPPK-2
Match Lit	1 Box	HSBK-ML-1
(MLFPK)	2 Boxes	HSBK-ML-2

-OR-
PUSH BUTTON / FLAME SENSE MODELS (FPPK) MOUNTING SLEEVE

FPPK-VBMS

This stainless steel sleeve can be mortared in place with block or fastened to stone or metal - adjustable support bracket included. (7.75"W x 3.25"H x 6.25"D)

MATCH LIT MODELS (MLFPK) PAVER BLOCK BRACKET

Valve/Flange Key not included

KVMB-PB

Designed for the Dante Valve, this bracket allows flexibility and installation ease of the MLFPK decorative key valve. The face plate is adjustable from 8" to 12" width accommodating most pavers. The valve is securely mounted to bracket using decorative flange. (8-12"W x 3.875H x 5"D)
IMPORTANT: For use only with DANTE Valve #327-CH (Pg. 55)

REPLACEMENT REMOTE SMALL TANK KIT - LP (FPPK & MLFPK)

STLPK

This kit is for use with CSA certified FPPK and MLFPK fire pit models less than 90k Btu- see fire pit insert section for approved models. The kits includes a 90-degree regulator with 48" hose, 24" Flex Line, small tank L-Bracket and fittings for FPPK or MLFPK connection.
For use with CSA Certified FPPK & MLFPK fire pit inserts only

MATCH LIT SPARK IGNITER KIT

SIK36

Can't find matches or a lighter for a match-lit fire pit? No problem! HPC now offers a "Match-Lit Plus" Spark Ignitor Kit, which is easily installed and makes any match-lit fire pit much more convenient to light. Included in the kit is the spark ignitor itself, plus the battery-activated push-button mounting plate (battery included).

READY TO FINISH ENCLOSURES

These units are unfinished to allow the customer to finish with stone, veneer, or stucco to match their surrounding. Units are available in round, octagon, square, and linear shapes. Housings take the guess work out of enclosure construction - especially with the difficult round and octagon shapes. These are 18" tall and are constructed of sturdy 22 gauge galvanized steel material, welded frame, and a 1/2" hardboard shell, and weigh 150 lbs.

Shape	Size	Models	Pan Size

MANUAL SPARK, FLAME SENSING (FPPK) CONTROL SYSTEMS

This system utilizes a standing pilot with thermocouple sensing to safely control gas flow, manual flame height adjustment, manual switch spark igniter (battery operated), and a safety pilot valve mounted in a stainless steel box.

Size: 7.5"x6.5"x2.6"

Max BTU	Gas Type	Models
140k	Natural Gas	FPPK-HC-NG
	Liquid Propane	FPPK-HC-LP
90k	Natural Gas	FPPK-MC-NG
	Liquid Propane	FPPK-MC-LP

PILOT ASSEMBLY AND BLOWOUT BOX

See chart for recommended burner size.
Includes: Assembled stainless steel control box, 36" pilot assembly with spark igniter, and blowout box, flex line, hard pipe, and fittings.

Recommended FPPK Burner Size

Burner Type	Size w/ FPPK-HC	Size w/ FPPK-MC
Penta Series	18" ~ 30"	12" ~ 24"
Round Burner	18" ~ 30"	12" ~ 18"
H-Burner Series	30"X8" ~ 48"X10"	24"X6" ~ 30"X8"
Square Burner	18" ~ 24"	12" ~ 18"
T-Burner	50" ~ 72"	36" ~ 48"

NOTE: Burner too small could result in unsafe LP backpressure. Burner too large could result in small, undesirable flame height.

MATCH LIT, FLAME SENSING (FPSPPK) CONTROL SYSTEM

Match lit safety pilot control system with flame recognition and manual flame height adjustment. Up to 90k Btu output.

FPSPPK
Match Lit (4.75" x 3.5" x 2"), Flame Sense, 3/8" System, up to 90k Btu

When ordering, please specify gas type!

See chart for recommended burner size.

Includes: Assembled stainless steel control box, 48" pilot assembly and blowout box and flex line.

Recommended FPSPPK Burner Size

Burner Type	Recommended Size
Penta Series	12" ~ 24"
Round Burner	12" ~ 18"
H-Burner Series	24"X6" ~ 30"X8"
Square Burner	12" ~ 18"
T-Burner	36" ~ 48"

NOTE: Burner too small could result in unsafe LP back pressure. Burner too large could result in small, undesirable flame height.

COMMERCIAL AUTOMATIC SHUTOFF TIMERS - 120VAC

Available Now!!!

694 | **695**
2 Hour Timer | *12 Hour Timer*

Stainless Steel Rotary Timer (SPDT, 20A) 1/2" deep. Double gang box recommended. For use with NEMA 3R box for mounting.

694 NEMA | **695 NEMA**
2 Hour Timer | *12 Hour Timer*

NEMA 3R Box with 694 or 695 timer. Includes timer mounted into the NEMA 3R box for your convenience.

696
2, 4, 8 and 12 Hour Timer

Four preset switch for indoors. Can be set at 2, 4, 8, and 12 hours (SPDT, 20A). Fits single Gangbox

GT-ESTOP-2.5
2.5 Hour Timer

A combination of an "Emergency Stop" control switch, plus a Gas-turn-off timer that is adjustable up to 2-1/2 hours.

NG - 290,000 BTU/hr Max Capacity
LP - 430,000 BTU/hr Max Capacity

POWER SUPPLIES - FOR 24VAC & 12VAC MODELS

Input Primary - 120VAC, 60/50Hz, 1A max
Output Secondary - 24VAC & 12VAC, 60/50Hz, 4A

24VAC Model	Style	For use with
311-PS1	1 Output	24 VAC Inserts
311-PS3	3 Outputs	24 VAC Inserts
311-PS5	5 Outputs	24 VAC Inserts

12VAC Model	Style	For use with
313-PS1	1 Output	12 VAC Copper
313-PS3	3 Outputs	12 VAC Copper
313-PS5	5 Outputs	12 VAC Copper

COMMERCIAL EMERGENCY STOP - 120VAC, 24VAC OR 12VAC

Perfect for commercial applications of Evolution 360 or EI systems. Push button with keyed reset allows supervisor confirmation. Safely turns off up to 3 circuits plus one fail safe function.

For replacement Keys use product number:

E-STOP-KEY

311-ESTOP-3
Size: 2.8" x 2.8" x 4", Rated for 600VA, 10A Rated IP65 - Protection against dust and low pressure water from all directions.

120 VAC OUTDOOR ON/OFF REMOTE CONTROL

578-C
Used with EI Fire Pit Systems. 120 VAC models only. CARLON in-line power control with 3 prong in/out.

Inspired by safety. Innovated for your lifestyle.

The LP Kit includes the burner, properly sized air mixer, and fittings.
The NG Kit includes the burner.

LOG LIGHTER BURNER- STAINLESS STEEL

Includes - stainless steel burner tube, LP air mixer or NG orifice, connector and end cap, El. Can be connected together in sections.

Custom Lengths Available

Model #	Size in inches	Gas
SS17N	17"	NG
SS17P	17"	LP

MISCELLANEOUS PARTS

SPARK IGNITER COMPONENTS

690-AA
Mounts easily with 2 screws. Use with external switch.
AA batteries easy to replace.
Sealed battery compartment.
Dual ignition outlets
(Replaces #690)

691AA-HPC
Screw-in cap holds unit in place.
Uses 1 AA battery. Sealed battery chamber. Easy Battery Replacement

130
Snap-in Type
One spark per button push.

131
Electrode to use with the
130 Spark Igniter pictured to the left

FPK PUSH BUTTON SPARK IGNITION KIT
Includes Spark Generator, Ignition, Mounting Plate and AA Battery

FPK

FPLP SERIES SMALL LP TANK CONVERSION KIT
Includes Regulator, Air Mixer, 12' Hose with quick disconnector, shut off valve, and fittings.
Minimum Burner Size: 12"
Minimum T-Burner Size: 48"
IMPORTANT: If using glass media, glass application to burner must be minimal to avoid backpressure. Read instructions carefully.
Not for use with HPC **Certified** Inserts

FPLP40 - 40k Btu
FPLP90 - 90k Btu

HPC DISPLAY KIOSK

Front

Back

7'

3'

HPC offers a very appealing and educational kiosk for your store front. It is constructed of long-lasting steel and powder coated for a professional look- and is very simple to assemble. The kiosk explains in Layman terms how to select and construct the style, shape, and technology of their fire pit with the help of the Dealer while using HPC fire pit inserts. The Kiosk Kit includes the kiosk stand, burners with placards, a laminated flip-book and several take-home brochures (replenished at no cost).

Flip Book Cover

HPC DISPLAY STANDS

FOR DISPLAY ONLY! NOT FOR OUTDOOR INSTALLATION

Need to display your fire pit inserts? Our steel display stands give full access to the insert for your customer to look at every detail!
The fire pit insert displays are available as follows:

1) Push Button / Spark Ignition (FPPK) Display Kit- includes applicable FPPK fire pit insert, match lit insert control valve (327-CH) and the display stand.
2) Electronic Ignition (EI) Display Kit- includes applicable EI fire pit insert and the display stand.
3) Stand Only
