Technical Support	16

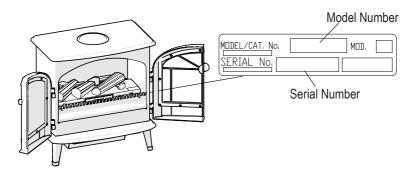

Always use a qualified technician or service agency to repair this unit.

- ! NOTE: Procedures and techniques that are considered important enough to emphasize.
- A CAUTION: Procedures and techniques which, if not carefully followed, will result in damage to the equipment.
- **WARNING:** Procedures and techniques which, if not carefully followed, will expose the user to the risk of fire, serious injury, or death.

(i) Welcome & Congratulations

Thank you and congratulations for purchasing an Optimyst® stove from Dimplex. Please use our convenient online registration page to record your model and serial numbers for future reference at

www.dimplex.com/register

Please carefully read and save these instructions.

▲ CAUTION: Read all instructions and warnings carefully before starting installation. Failure to follow these instructions may result in a possible electric shock, fire hazard and will void the warranty.

A IMPORTANT INSTRUCTIONS

When using electrical appliances, basic precautions should always be followed to reduce the risk of fire, electric shock, and injury to persons, including the following:

- 1 Read all instructions before using the unit.
- ② The heater is hot when in use. To avoid burns, do not let bare skin touch hot surfaces. The trim around the heater outlet becomes hot during heater operation.
- ♠ CAUTION: High Temperature, keep electrical cords, drapery, and other furnishings at least 3ft (.9m) from the front of the heater and away from the side and rear.
- ③ Extreme caution is necessary when any heater is used by or near children or invalids and whenever the unit is left operating and unattended
- 4 Always unplug the unit when not in use.
- ⑤ Do not operate any unit with a damaged cord or plug, if it malfunctions or if the unit has been dropped or damaged in any manner. Contact Dimplex Technical Service at 1-888-346-7539.
- 6 Do not use outdoors.

- The unit is not intended for use in bathrooms, laundry areas and similar indoor locations. Never locate unit where it may fall into a bathtub or other water container.
- ® Do not run the cord under carpeting. Do not cover cord with throw rugs, runners, or the like. Arrange cord away from traffic area and where it will not be tripped over.
- To disconnect the unit, turn the controls off, then remove the plug from the outlet.
- (10) Always use properly grounded, fused and polarized outlets.
- ① Do not insert or allow foreign objects to enter any ventilation or exhaust opening as this may cause an electric shock or fire, or damage to the heater.
- 12 To prevent a possible fire, do not block air intake or exhaust in any manner. Do not use on soft surfaces, like a bed, where openings may become blocked.
- (3) All electrical heaters have hot and arching or sparking parts inside. Do not use in areas where gasoline, paint, or flammable liquids are used or stored or where the unit will be

A IMPORTANT INSTRUCTIONS

exposed to flammable vapors.

- (4) Do not modify the unit. Use it only as described in this manual. Any other use not recommended by the manufacturer may cause fire, electric shock or injury to persons.
- (§) To reduce the risk of electric shock, this appliance must be grounded. Avoid the use of an extension cord. Extension cords may overheat and cause a risk of fire. Always plug heaters directly into a wall outlet/receptacle. Never use with an extension cord or relocatable power tap (outlet/power strip).
- (6) Do not burn wood or other materials in the unit.
- ① Always use a certified electrician should new circuits or outlets be required.
- (8) Disconnect the power supply before performing any cleaning, maintenance or relocation of the unit.

- When transporting or storing the unit and cord, keep in a dry place, free from excessive vibration and store so as to avoid damage.
- ② The stove must not be located directly below a socket outlet.
- ②1) The stove must be positioned so that the plug is accessible.
- **WARNING:** Remote control contains small batteries. Keep away from children. If swallowed, seek medical attention immediately.
- **WARNING:** Do not install battery backwards, charge, put in fire or mix with used or other battery types may explode or leak causing injury.
- ! NOTE: Changes or modifications not expressly approved by the party responsible for compliance could void user's authority to operate the equipment.

CAUTION

RISK OF ELECTRIC SHOCK
DO NOT OPEN
NO USER-SERVICEABLE PARTS INSIDE

SAVE THESE INSTRUCTIONS

♠ WARNING: Ensure the power cord is not installed so that it is pinched or against a sharp edge and ensure that the power cord is stored or secured to avoid tripping or snagging to reduce the risk of fire, electric shock or injury to persons.

WARNING: Construction and electrical outlet wiring must comply with local building codes and other applicable regulations to reduce the risk of fire, electric shock and injury to persons.

WARNING: Do not attempt to wire your own new outlets or circuits. To reduce the risk of fire, electric shock or injury to persons, always use a licensed electrician.

WARNING: To reduce the risk of fire, do not store or use gasoline or other flammable vapors or liquids in the vicinity of the heater.

! NOTE: A 15 Amp, 120 Volt circuit is required. A dedicated circuit is preferred but not essential in all cases. A dedicated circuit will be required if, after installation, the circuit breaker trips or the fuse blows on a regular basis when the heater is operating. Additional appliances on the same circuit may exceed the current rating of the circuit breaker.

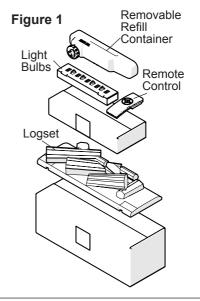

6

Site Selection and Preparation

- Carefully unpack all of the components from the box. (Figure 1)
- Determine a location for the stove, 24.6in. (625mm) from a corner and against a wall to secure, to prevent tipping.

A CAUTION: A minimum of 24.6in. (625mm) from a corner, is recommended for optimum airflow and flame production.

Using the enclosed tip restraint kit attach one bracket to the back of the unit, with one of

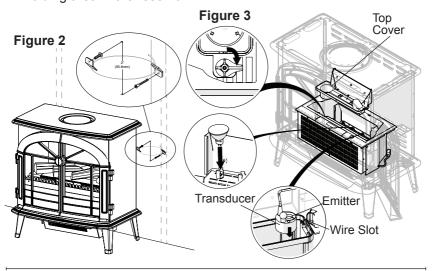

X Installation

the existing screws, and the other bracket to a wall stud using the 2" (51 mm) screw. (Figure 2)

Assembly

- Remove top cover by turning the retaining tabs on both ends of the water reservoir. (Figure 3)
- Install the light bulbs by aligning the pins on the bulbs and the fixture and pressing down until they are fully inserted. (Figure 3)
- 3. Install the transducer so that it is sitting level in the circular holding area in the reservoir.

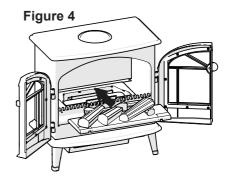

- Orient transducer wire so that it does not sit directly above the emitter and the wire passes through the slot in the side of the tank. (Figure 3)
- 5. Plug the transducer into the port on the unit.
- Reinstall the top cover and ensure both retaining tabs have been turned so that they are pointing inwards.
- 7. Fill and install the Refill Container.
- ! NOTE: Normal tap water can be used in the Optimyst® as long as the tap water is not considered to be hard water. In the event

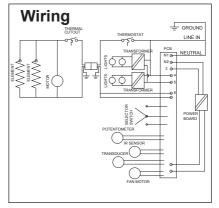

% Installation

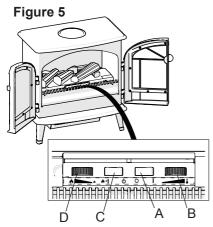

your tap water is hard, you may use softened water or distilled water with 1/8 tsp of salt (0.5 mL) added to the water reservoir. (The addition of additional salt should only be used when you notice that the unit is not producing mist as expected.)

- ! NOTE: During initial installation, the Refill Container should be refilled after the Reservoir has filled to ensure the maximum operating time.
- 8. Install the logset on top, so that the opening is not blocked. (Figure 4)
- Make sure the On/Off switch is switched to Off (refer to Operating Instruction section).
- 10.Plug the unit into a 15 Amp/ 120 volt outlet.

Operation

A WARNING: This electric firebox must be properly installed before it is used.

! NOTE: When the unit is used in an environment where background noise is very low, it may be possible to hear a sound which is related to the operation of the flame effect. This is normal and should not be a cause for concern.

! NOTE: Always ensure that the appliance is in a level position.

The manual controls for the unit are located below the control cover infront of the log grate (Figure 5).

A. On/Off Switch

Supplies power to the unit.

B. Thermostat Control

To adjust the temperature to your individual requirements, turn the thermostat control clockwise all the way to turn on the heater. When the room reaches the desired temperature, turn the thermostat knob counterclockwise until you hear a click. Leave thermostat in this position to maintain the room temperature at this setting. For additional heat, turn clockwise until you hear the click again and the heater will turn on.

C. Mode Selector Switch

Press • I once to turn on the flame effect. This will be indicated by an audible "beep". Although the lights turn on immediately it will take 30 seconds before the flame effect starts.

- Press again to give flame effect and full heat. This will be indicated by two "beeps".
- Press again to return to flame effect only. This will be indicated by one "beep".
- Press to put fire in to standby mode. This will be indicated by one "beep".

Operation

D. Flame Intensity Control

Adjusts the intensity of the flame and smoke effect when the heater has been activated.

Turning the control knob clockwise decreases the intensity of the flame and smoke effect. Turning the control counterclockwise will increase the flame and smoke effect

! NOTE: Give the flame generator some time to react to changes you may make on the flame control knob.

! NOTE: When the water tank is empty the unit will turn off after 30 seconds. See instructions under Maintenance Section for refilling tank. When this procedure is complete, the main lamps will illuminate but it will take 30 seconds before the flames return.

Resetting the Temperature Cutoff Switch

Should the heater overheat, an automatic cut out will turn the heater off and it will not come back on without being reset. It can be reset by switching the On/ Off Switch to Off and waiting 10 minutes before switching the unit back on.

A CAUTION: If you need to continuously reset the heater, unplug the unit and call Dimplex North America Limited at 1-888-346-7539 for technical support. Please have your model and serial number ready when calling.

Remote Control

The On/Off Switch must be in the 'ON' (I) position in order for the remote control to operate (Figure 5A). There are 3 buttons on the remote control. (Figure 6)

! NOTE: To operate correctly the remote control must be pointed towards the remote control sensor.

The remote control functions are as follows:

Press once to turn on Flame effect only. This will be indicated by one beep.

Press once to turn on Full heat and Flame effect. This will be indicated by two beeps.

Standby - This will be indicated by one beep.

! NOTE: Once the mist has been activated, the unit will have

Operation

to be turned Off, using either the momentary button, on the unit, or the Off button on the remote control, then back on to return to Level 1 - Flame Effect

Battery Replacement

To replace the battery:

- Slide battery cover open on the remote control (Figure 6).
- Install two 1.5 Volt (AAA) bat-2. tery in the battery holder.
- Close the battery cover.

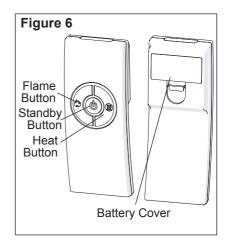

Battery must be recycled \triangle or disposed of properly. Check with your Local

Authority or Retailer for recycling advice in your area.

Servicing

Except for installation and cleaning described in this manual, an authorized service representative should perform any other servicing.

! NOTE: When transporting or storing the unit and cord, keep in a dry place, free from excessive vibration and store so as to avoid damage.

Maintenance

♠ WARNING: Disconnect power before attempting any maintenance or cleaning to reduce the risk of fire, electric shock or damage to persons.

Filling the water tank

When the water tank is empty, the flame effect shuts off and you will hear 2 audible beeps, follow these steps.

♠ CAUTION: Allow at least five minutes for components to cool before disassembling the unit to refill.

- Turn the On/Off switch to the off position (0) (Figure 5)
- Gently remove the logset and place it carefully on the ground.
- 3. Remove the refill container by lifting upwards and outwards.
- 4. Refill the container with tap water.

! NOTE: Normal tap water can be used in the Optimyst® as long as the tap water is not considered to be hard water. In the event your tap water is hard, you may use softened water or distilled water with 1/8 tsp of salt (0.5 mL) added to the water reservoir. (The addition of additional salt should only be when you notice that the unit is not producing mist as expected.)

- 5. Screw the cap back on, **do not overtighten**.
- Return the refill container to the sump, with the tank cap facing down and the flat side of the tank facing outward.
- 7. Gently place the logset back into position.
- 8. Turn the On/Off switch to the off position (I). (Figure 5)

If you do not intend on using the unit for longer than 2 weeks, empty and drain the unit of water, and dry all of the water containing components.

Replacing the Light bulbs
If a large amount of the smoke
appears grey or colourless it may
be that one or more of the light
bulbs have burnt out.

♠ CAUTION: Allow at least twenty minutes for light bulbs to cool before touching bulbs to avoid accidental burning of skin.

- Leaving the flame effect on, remove the logset and water tank and lift out the top cover (Figure 3).
- View the lamps from a distance in front of the fire and observe which lamp needs to

be changed.

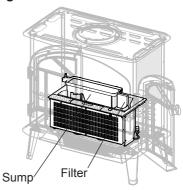

- 3. Turn the unit off, and unplug the unit.
- 4. Leave the appliance for 20 minutes to allow the lamps to cool down before removing them.
- Remove the defective bulb, by gently lifting vertically and disengaging the pins from the lamp holder.
- ! NOTE: Replacement light bulbs can be obtained by contacting Dimplex Customer Service at 1-888-346-7539.
- Carefully insert the two pins of the new bulb into the two holes in the lamp holder. Push lamp firmly in place.
- 7. Replace the top cover, refill container and logset.

Cleaning

It is recommended that all of the components that contain water are cleaned with soap and water on a *biweekly* basis. A small brush has been included to assist in cleaning difficult items/areas, i.e. the transducer.

A CAUTION: Do not put plastic components in the dishwasher.

Figure 7

Filter Cleaning

The air filter can be removed and gently rinsed with water to clean and dried on a towel before reinstalling.

! NOTE: Replace the filter so that the course black filter is facing the front of the unit.

Surface Cleaning

Use a warm damp cloth only to clean surfaces of the unit. Do not use abrasive cleaners.

! NOTE: If you need to move the unit ensure that all of the components that contain water have been emptied before relocating.

ONE YEAR LIMITED WARRANTY

Products to which this limited warranty applies

This limited warranty applies to your newly purchased Dimplex stove and to newly purchased Dimplex fireplace surrounds (mantels) and trims. This limited warranty applies only to purchases made in any province of Canada except for Yukon Territory, Nunavut, or Northwest Territories or in any of the 50 States of the USA (and the District of Columbia) except for Hawaii and Alaska. This limited warranty applies to the original purchaser of the product only and is not transferable.

Products excluded from this limited warranty

Products purchased in Yukon Territory, Nunavut, Northwest Territories, Hawaii, or Alaska are not covered by this limited warranty. Products purchased in these States, provinces, or territories are sold AS IS without warranty or condition of any kind (including, without limitation, any implied warranties or conditions of merchantability or fitness for a particular purpose) and the entire risk of as to the quality and performance of the products is with the purchaser, and in the event of a defect the purchaser assumes the entire cost of all necessary servicing or repair.

What this limited warranty covers and for how long

Products covered by this limited warranty have been tested and inspected prior to shipment and, subject to the provisions of this warranty, Dimplex warrants such products to be free from defects in material and workmanship for a period of 12 months from the date of the first purchase of such product.

The limited 12 month warranty period also applies to any implied warranties that may exist under applicable law. Some jurisdictions do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to the purchaser.

What this limited warranty does not cover

This limited warranty does not apply to products that have been repaired (except by Dimplex or its authorized service representatives) or otherwise altered. This limited warranty does further not apply to defects resulting from misuse, abuse, accident, neglect, incorrect installation, improper maintenance or handling, or operation with an incorrect power source.

What you must do to get service under this limited warranty

Defects must be brought to the attention of Dimplex Technical Service by contacting Dimplex at 1-888-DIMPLEX (1-888-346-7539), or 1367 Industrial Road, Cambridge Ontario, Canada N3H 4W3. Please have proof of purchase, catalogue/model and serial numbers available when calling. Limited warranty service requires a proof of purchase of the product.

What Dimplex will do in the event of a defect

In the event a product or part covered by this limited warranty is proven to be defective in material or workmanship during the 12 month limited warranty period you have the following rights:

 Dimplex will in its sole discretion either repair or replace such defective product or part without charge. If Dimplex is unable to repair or replace such product or part, or if repair or replacement is not commercially

practicable or cannot be timely made, Dimplex may, in lieu of repair or replacement, choose to refund the purchase price for such product or part.

- Limited warranty service will be performed solely by dealers or service agents of Dimplex authorized to provide limited warranty services.
- The purchaser is responsible for removal and transportation of such product or part (and any repaired or replacement product or part) to and from the authorized dealer's or service agent's place of business.
- This limited warranty does not entitle the purchaser to on-site or in-home services. On-site or in-home services may be performed at the purchaser's specific request and expense at Dimplex's then-current rates for such services.
- Dimplex will not be responsible for, and the limited warranty services shall not include, any expense incurred for installation or removal of the product or part (or any replacement product or part) or any labour or transportation costs. Such costs shall be the purchaser's responsibility.

What Dimplex and its dealers and service agents are also not responsible for:

IN NO EVENT WILL DIMPLEX, OR ITS DIRECTORS, OFFICERS, OR AGENTS, BE LIABLE TO THE PURCHASER OR ANY THIRD PARTY, WHETHER IN CONTRACT, IN TORT, OR ON ANY OTHER BASIS, FOR ANY INDIRECT, SPECIAL, PUNITIVE, EXEMPLARY, CONSEQUENTIAL, OR INCIDENTAL LOSS, COST, OR DAMAGE ARISING OUT OF OR

IN CONNECTION WITH THE SALE, MAINTENANCE, USE, OR INABILITY TO USE THE PRODUCT, EVEN IF DIMPLEX OR ITS DIRECTORS, OFFICERS, OR AGENTS HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH LOSSES, COSTS OR DAMAGES, OR IF SUCH LOSSES, COSTS, OR DAMAGES ARE FORESEEABLE. IN NO EVENT WILL DIMPLEX, OR ITS OFFICERS, DIRECTORS, OR AGENTS BE LIABLE FOR ANY DIRECT LOSSES, COSTS, OR DAMAGES THAT EXCEED THE PURCHASE PRICE OF THE PRODUCT.

SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATION OR EXCLUSION MAY NOT APPLY TO THE PURCHASER.

How State and Provincial law apply

This limited warranty gives you specific legal rights, and you may also have other rights which vary from jurisdiction to jurisdiction. The provisions of the United Nations Convention on Contracts for the Sale of Goods shall not apply to this limited warranty or the sale of products covered by this limited warranty.

Technical and troubleshooting support, as well as a list of replacement parts can be found on

www.dimplex.com/customer_support.
