

**HONDA VFR 800 2002-2009  
SARGENT WORLD SPORT PERFORMANCE SEAT  
INSTALLATION GUIDE**

**Cowl Installation**

Since the rear seat foam has been enhanced on the World Sport Performance Seat, it is normal for the rear cowl to have a slightly tighter fit.

**Important**

*Use caution when installing the cowl, by sliding it slowly into place and gently flexing it as needed.*

Extra care should be taken to protect the front of the seat by placing a folded towel or other soft material between the seat and any hard surfaces.
